

Thomas Jefferson Powerpoint Bullets for 6/20/2010
Operational Period 6/18/2010 Sampling Period

- Six stations, TJ37 – TJ42, were sampled during the operational period.
- All stations were sampled for: TPH, VOAs, and oil dispersion (CTD fluoremetry and dissolved oxygen).
- No samples were collected for bioassay using the Rototox test.
- No fluorescence found for any of these sample stations.
